

Solution: These are, without exception, inappropriate inquiries, a phrase which here means “all the wrong questions”. Here are the questions you should have asked instead:

- (a) Why would someone say something was stolen when it was never theirs to begin with?
- (b) How could someone who was missing be in two places at once?
- (c) Why would someone destroy one building when they really wanted to destroy another?

■

Solution: Pietrisycamollaviadelrechiotemexity!¹

¹In previous semesters, this would have been worth 25% partial credit, but no longer.

Solution (R. Rotten): Alright! I can see that I will have to teach you how to be *villains!*

- (a) Now listen closely. Here's a little lesson in trickery. This is going down in history. If you wanna be a Villain Number One, you have to chase a superhero on the run. Just follow my moves, and ^{sneak} around. Be careful not to make a sound! Shh! No, don't touch that!

$We = \#1^{\text{Hey!}}$

(b)

```
HAHAHA(net):  
  net.found ← now  
  LookAt(net)  
  in parallel:  
    for i ← 1 to 100  
      if said_go = True  
        net.ReadyToThrow ← True  
    said_go ← True  
  if net.ReadyToThrow  
    Throw(net, him, ¬me)  
  TRY(banana.peel)
```

```
Try(somethingelse):  
  Watch()  
  Learn()  
  deal.location ← here  
  return Slip(somethingelse) ∧ Slide(somethingelse)
```

HAHAHA(*Gasp!*) What are you doing!?

- (c) Ba-ba-biddly-ba-ba-ba-ba, ba-ba-ba-ba-ba-ba-ba, we are number one. Hey!
Ba-ba-biddly-ba-ba-ba-ba, ba-ba-ba-ba-ba-ba-ba, **VILLAIN NUMBER ONE!**
- (d) Ba-ba-biddly-ba-ba-ba-ba, ba-ba-ba-ba-ba-ba-ba, we are number one. Hey!
Ba-ba-biddly-ba-ba-ba-ba, ba-ba-ba-ba-ba-ba-ba, we are number one. Hey!
We are number one, hey! We are number one! We are number one! Hey! Hey!

- *Enchiridion*, Chapter 13

Solution: Let n be an arbitrary non-negative integer. There are four cases to consider:

- Makin' pancakes, makin' bacon pancakes
- Make some bacon and I put it in a pancake
- Bacon pancakes, that's what it's gonna make

O shit waddup
