

**NPRE441: Principles for Radiation Protection**  
**Spring 2024**

---

**Project Information**

**A. Instructions:**

For this project, the class will be divided into 7 groups. For each group of 5 members, please review the reference paper assigned to your group, write up a short essay based on your review of the paper, and prepare a 15-minute (12-min + 3-min Q/A) presentation to discuss the objectives, experimental approaches, results, and major findings of the paper.

**B. Assignment for each group:**

1. Please find the group designation and the paper assigned to your group on the course website <<http://courses.engr.illinois.edu/npre441/>>.
2. Review the paper in detail and write a 3-page short essay following the template given on the course website.
3. Prepare a 12-slide presentation.

**C. Due date for the short essay:**

5 pm on April 30<sup>th</sup>. Please send your essay to me at <[ljmeng@illinois.edu](mailto:ljmeng@illinois.edu)>.

**D. In-class presentation:**

1. Date and time: noon-2pm, on Wednesday, May 1. The presentation session will held be at 3018 CIF.
