

PHYS100: To-do list before the first day of class

Hi, everyone. Here is some basic things to-do before your first class.

Check out the course website, which has a ton of information
<https://courses.physics.illinois.edu/phys100/fa2021/>

Your first discussion section (Tues - Thurs)

1. You do have a discussion section to attend during the first week of class (Aug. 24-26). Please bring a laptop/tablet to access online pdfs.

Before your first lecture (Fri)

1. Complete the pre-lecture and checkpoint questions for “1. Kinematics Definitions” on smartPhysics (you can get to smartPhysics from the course website)
2. Purchase an iClicker, register it, and bring it to lecture (see “iClicker Info” page on the course website for more details.)
3. Check out the class Piazza Message board (<https://piazza.com/illinois/fall2021/phys100>)

Questions?

Post any questions on the course piazza message board under the “course logistics” channel. If you post your question publicly, it’s bound to help someone else too!
