Jeffrey Graham, M.A. - CCP Program Coordinator

I have served as the Program Coordinator since Fall 2016. I have spent almost 10 years in higher education, including in college admissions, academic advising, and teaching. During that time, I also gained as a part-time hospital-based addiction recovery counselor. I earned my B.A. in History (Social Sciences) Education and Theatre Education from Illinois State University and my M.A. in Clinical Mental Health Counseling from Adams State University. Being program coordinator has afforded me the opportunity to combine my passions for education and mental health.

As an instructor, I aim to be collaborative and experiential; I also use critical pedagogy techniques when appropriate, giving students the space to consider their roles in their education and social environments. From a counseling standpoint, I tend favor cognitive behavioral, person-centered, and mindfulness techniques. I look forward to working with the CCP program and integrating my professional experience into my responsibilities.
Breakout rooms

- Use Zoom link from peer mentor
- Discuss mental health survey
- Return to this Zoom in about 10 minutes!
