Final Project Rubric

This is the rubric to assess the final project for your final grade. This is written in a very open manner due to the differences between projects.

Project Scope (30%)

☐ Project goals accomplished
☐ Development progressed over the course of the project.

Code Quality (35%)

☐ Solution approach is well thought out
☐ Code is logically organized
☐ Avoids unnecessary repetition ("Don't repeat yourself")
☐ Use and integrate libraries appropriately.
☐ Good use of C++ style

Development and Documentation (30%)

☐ Final proposal in `PROPOSAL.md`
☐ Development documentation and logs in `DEVELOPMENT.md`
☐ Usage and build documentation in `README.md`
☐ Tests for code as appropriate
☐ Iterative development methodology
☐ Regular check-ins

Final Presentation (5%)

☐ Arrived on time with all necessary materials and ready to go
☐ Show what is cool about your project
☐ Engaged and paying attention to other students presentations
☐ Behaves respectfully to moderator and other students
