

Project Proposal Rubric

This is the rubric to assess the proposal for the final project.

Scaling Factor

All assignments will have the following scaling factors. These will be applied to the final grade for the assignment rather than on each section.

- Lose 25% for each day late

Project Proposal (50%)

This section covers the requirements that you must meet to score in this section. For the purpose of grading this week we will not be evaluating the quality of your project just the quality of your proposal specifically the following.

- Explain the project you want to do in clear English
- Clearly identify the libraries you will be using for your project
- Identify any background you have that will help you succeed in your project

Outside Library Exploratory Work (20%)

This section covers the work done identifying and testing the outside library that you will be using with this project.

- Library identified for project

Presentation (15%)

- Present project proposal including motivation and key challenges expected
- Appropriate pacing and engagement of the fellow students

Participation (15%)

- Arrived on time with all necessary materials and ready to go
- Engaged and paying attention to other students presentations
- Asks questions and/or makes comments that further the discussion*
- Explains reasoning for why something is good or bad
- Behaves respectfully to moderator and other students
