# Upcoming: Theory Exam #1

## Theory Exam #1

- Starts this Thursday

## • Topic List:

<https://courses.engr.illinois.edu/cs225/fa2018/exams/exam-theory1/>

### Topics Covered

Topics from lecture:

- Classes in C++
  - Public members functions
  - Private helper functions
  - Private variables
  - Constructors
    - Automatic default constructor
    - Custom constructors (default and non-default)
    - Copy constructor
    - Automatic copy constructor
    - Custom copy constructor
- Namespaces in C++
  - Creating a class that is part of a namespace (eg: Cube is part of the cs225 namespace)
  - Using a class from a namespace (eg: cs225::Cube)
  - Purpose and usefulness of namespaces
- Variables
  - Four properties: name, type, location (in memory), and value
  - Primitive vs. user-defined
- Memory
  - Indirection in C++
  - Reference variables
  - Pointers
  - Differences and trade-offs between each type
  - Stack memory
  - Heap memory
- Functions: Calling and Returning
  - Pass by value, by reference, and by pointer
  - Return by value, by reference, and by pointer

# MP1 Deadline

## **Programming is hard!**

Every MP in CS 225 will have an automatic 24-hour grace period after the due date.

**Due:** Monday, 11:59pm

**Grade Period until:** Tuesday, 11:59pm

# MP1 Deadline

## **Programming is hard!**

Every MP in CS 225 will have an automatic 24-hour grace period after the due date.

**Due:** Monday, 11:59pm

**Grade Period until:** Tuesday, 11:59pm

Since the MP will past-due, **there are absolutely no office/lab hours on Tuesdays.**

# Registration

**The last chance to register for CS 225 is today.**  
We will not be doing any late adds.

If you've registered late, everything so far is due this  
**Tuesday, Sept. 10 @ 11:59pm.**
