## Meet Your Classmates!

Welcome to the course! To help everyone connect, form potential study groups, and find lab teammates, please reply to this thread with the following:

1. **Your name and major**
2. **Something fun or unusual about you**
3. **One topic in data structures you're curious or excited about**
4. **When you typically do course work (days/times)**

Read and reply to at least 2 others who have similar interests or schedules!
